Who owns an AI-generated invention? The inventor is the first owner of any patent which is applied for and granted over that invention. As the law currently stands, AI cannot be the inventor (and therefore the owner of a patent) because “devising” an invention is a human activity which involves contributing to the inventive concept.

Who Owns an AI-generated Invention?

Yet Nina's grandfather made so much money from his invention that he was able to buy his freedom from his owner. He went on to become a very rich man—so rich, he not only bought a piece of land on the Volga River but married off his daughter to a noble who owned the next stretch of river lands.

While inventors and authors are always natural persons, when owners are a separate entity they can be organisations. This is a common situation when inventors and authors work for an organisation or employer that owns their creations due to. assignment arrangements made in the framework of an employment relationship.

Fact Sheet Inventorship, Authorship and Ownership

In patent law, an inventor is the person, or persons in United States patent law, who contribute to the claims of a patentable invention. In some patent law frameworks, however, such as in the European Patent Convention (EPC) and its case law, no explicit, accurate definition of who exactly is an inventor is provided.

Inventor (patent) - Wikipedia
