Engine R18a2 - dryvnt.me
There are many things wrong with what you are doing and what you have self diagnosed. First, 0w-30 and 5w-30 are the same weight oil.Modifiers in the oil cause it to flow easier with the 0w than with the 5w when the engine is cold.If anything, you are hurting your engine by putting the 5w oil, than by using the 0w, because most engine wear occurs at startup of the engine.
